Winning smile

Your smile says it all. Skilled, professional dentistry delivered with pride. And we're happy to be part of your success.

As always, Ash Temple is moving forward, working in partnership with customers, anticipating needs, developing more effective products and services.

Our constant concern is to find new ways of helping Canadian dental practitioners attain their professional and business goals. When you win we win.

We'd like to tell you more about the Ash Temple companies; just call 1-800-268-6497. Or visit our web site at ashtemple.com

Sulzer Dental Inc.
Surgical Products

AdVent™ Single Stage

AdVent™

Single-Handedly Sets the Stage.

AdVent raises the standard in single-stage implant dentistry. The tapered design enhances initial stability, when inserted into a non-tapered site. AdVent's complete assortment of prosthetics support all restorative needs. And when a two-stage protocol is needed, simply use the same surgical kit to place Tapered Screw-Vent® two-stage implants. That means no more compromises. And no more confusion.

INTERNAL HEX CONNECTION with FRICTION-FIT ABUTMENTS. Forms a virtual "cold weld" with the implant, eliminating micromovement, the leading cause of screw loosening.

TEXTURED titanium surface for enhanced bone apposition.¹

TRIPLE-LEAD THREADS for three times faster insertion.²

TAPERED DESIGN inserted into a non-tapered site for osseocompression.³ Allows placement between convergent roots and in immediate extraction sites.

Efficient **SELF-TAPPING DESIGN** means less surgical time.

ADVENT

Winter Clinic Important Information

Pre-Registration and On-Site Registration:

Fees for all categories are payable to the Toronto Academy of Dentistry.

Please use 1 form per office registering attendees under applicable category. (Only if necessary, please photocopy to add additional registrants per office).

The registration fee includes admission to the Clinics, (additional fees for hands-on and limited attendance sessions) Exhibits and Luncheon.

All registration fees include GST (#123000879).

Winter Clinic Bucks:

"Dentists, it pays to pre-register"

Pre-register for Winter Clinic 2001 and be eligible to win \$500-worth of Winter Clinic bucks to be spent on the exhibit floor the day of the convention. *(some terms and conditions apply). The Academy Office will notify the lucky winners after November 1st, 2001.

EARLY REGISTRATION FOR ODHA AND ODN&AA MEMBERS:

Pre-register for Winter Clinic and be eligible to win a gift certificate from the Bay. *(some terms and conditions apply). The Academy Office will notify the lucky winners after November 1st, 2001.

The office will accept NO REGISTRATIONS after Friday, November 9th, 2001. The office will be closed on Wednesday, November 14th, 2001 (the day before Winter Clinic) and Friday, November 16th, 2001.

Association Membership:

ODA Dentist Members, regardless of their membership status, must have their full ODA dues paid prior to pre-registering or registering on-site. If membership dues are not showing paid, non-member fees will apply.

ODHA and ODN&AA membership fees must be paid to their associations prior to pre-registering. Please make sure the name (maiden or married surname) that appears on the registration form is the same that is listed with your membership association.

Payment of Fees:

Make cheques payable to the Toronto Academy of Dentistry at: Ste. 902-170 Bloor St. W. Toronto, Ontario M5S 1T9

Or fax registration forms along with credit card number to (416) 967-5081.

Registration forms faxed indicating payment by cheque **will not** be accepted and must be mailed along with the cheque.

Limited Attendance and Hands-On Workshop:

Additional fees apply to Dr. Nayyar's hands-on course and to the Learning Express Computer Workshop. Confirmations will be faxed prior to November 9th, 2001.

Cancellation and Refunds:

You will be issued a full refund until November 1st, 2001. Between November 1st and November 8th, 2001, 50 per cent refund. There will be no refunds after November 9th, 2001.

Badge Pick-up:

Badges will not be mailed; you must pick them up at your assigned registration desk. All badges will be receipted on the back.

Exhibit Hours, Clinics and Lunch:

Exhibits are open from 9:00 am-6:00 pm. All exhibits are located in Halls A & B on the upper level of the Convention Centre.

Support Your Exhibitors!

Clinics begin at 9:00 am. Again there will be the "Power Hour" sessions, informative 1 hour sessions covering several aspects of dentistry along with men's and women's health issues and a variety of other topics. Power hours allow you to get the most out of your day attending clinics and visiting the exhibit floor.

Lunch – 12:30 pm-2:00 pm in the Exhibit Hall

Attendance Verification for RCDSO Continuing Education Credit:

You will receive 6 credits for attending Winter Clinic.

There will be **two badges** in your badge holder. **One is a receipt of payment and the other must be stamped for Continuing Education credit. Accreditation desks will be setup at the end of aisles 200 and 1200 between 2:30 pm and 5:30 pm.**

Academy of General Dentistry receives 6 credit hours. Their booth is located at the top of the escalators Hall B.

Remember to register your staff, they need continuing education credits too!

Disclaimer:

The presence of any speaker as well as their opinions expressed in the clinical program of Winter Clinic does not confer or imply endorsement by the Toronto Academy of Dentistry.

**Is this what
you feel you know
about the
direction of
office automation?**

We can help.

Knowing what is right for your particular practice management and clinical needs can be a daunting task. With so much available, the questions and confusion can be frustrating, to say the least.

What type of management program meets my particular practice demands?

Is it important to have my data transferred if I am already computerized and if so, how much?

What type of intra-oral camera or digitized x-ray integrates with my software and how do I choose?

Has the time for charting finally arrived?

Is internet capability important?

How can I make sure we use what we have to the fullest potential once I invest in it?

At Autopia, we understand your needs and concerns. **Twenty years** of experience with the dental community has taught us to listen and learn so that **your** interests are **ours**.

For example, we have designed our Windows software so that virtually **any office** -- from the beginner to a thirty station network to a multiple location practice -- can achieve maximum results right from the start.

We also provide the complete transfer of your data in most cases. **In fact, we are one of the few who do.**

Autopia offers **complete integration** with all of the major intra-oral cameras and digitized x-rays on the market. As well as offering **clinical and perio charting**. And we always look ahead. We offer vital **internet capabilities** to increase communication and efficiency.

Most importantly, we go the extra step to make sure you and your staff use our software to its fullest potential. This is the key to practice success.

At Autopia, we provide extensive in-office training and then complement this throughout the year with various workshops. These workshops are designed specifically for Autopia users on topics such as treatment planning, recare, practice management, finance, individual practice analysis and more. These intimate sessions also feature exciting guest lecturers such as the renowned international speaker/consultant Anita Jupp.

We are even starting the Autopia University for those who want to go the "extra mile".

If you are in the market to change your software or wish to automate for the first time, Autopia can provide you with all of the answers, direction and technology you will ever need. Give us a call. You will be glad you did.

DANSE

Making dentistry feel better every day

"I provide better dentistry with less stress in the Danse environment. It is one of the best investments I have made in my 25 years of practising dentistry."

*John A. Anderson, Jr., DDS
Grand Forks, North Dakota*

"The Danse units are a work of art, clean lines almost minimalist... so well designed you risk taking them for granted. Everything is in its place. My productivity has greatly increased."

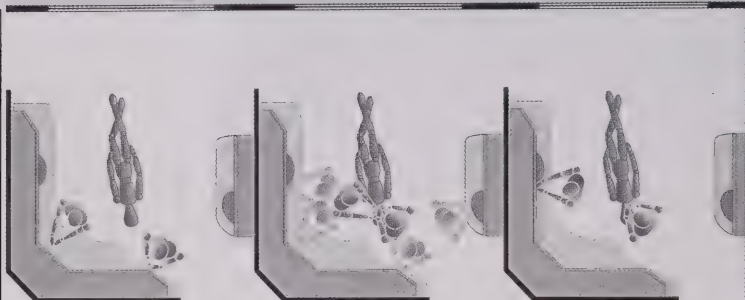

*Doug Jones, DDS
Kitchener, Ontario*

"I've had consistent high praise from patients on how great Danse looks. This is so important for the emotional side. It builds confidence."

*Jerry Milner, DDS
Austin, Texas*

"I absolutely love the design. Functionally, it just makes sense."

*Kristen Hill, Chairside Assistant
Burlington, Ontario*

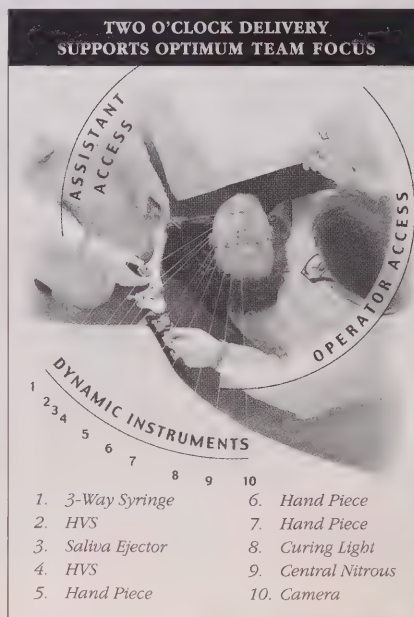

*Don Coburn, DDS, recently received **The National Post Design Exchange Silver Award** for Danse in the Business/Industrial Products category.*

The Danse Treatment Room

The unique features of this breakthrough environment offer a new level of support for comfortable, efficient teamwork and integration of today's technology.

This cabinetry based solution may be ordered as dedicated right (two o'clock delivery) or dedicated left (ten o'clock delivery).

How to Get Here

EASY ARRIVAL AND PARKING

To facilitate easy arrival and parking, we have developed maps and artwork that you may use free of charge, in order to direct your guests to the correct building and corresponding parking lot. These maps and other support material are available as artwork for inclusion in your show guides, invitations etc. A **South Building** parking directional map is also available, so please be sure to specify which map when you order.

Sample Map: Front "North Building"

Please note: this card fits
into a standard
#10 envelope.

Sample Map: Back "North Building"

Parking at the Metro Toronto Convention Centre

P Locations are indoors and give direct access to the Convention Centre.

HOW TO GET HERE:

The Metro Toronto Convention Centre, **North Building** entrance is located at 255 Front Street W., two blocks west of York Street.

The **South Building** entrance is located at 222 Bremner Boulevard, one block north of Lakeshore Blvd., west of York Street.

The North and South Buildings are connected to Union Station via the **Skywalk**.

The **Skywalk** entrance is located at the west end of Union Station, on street level.

Prior to arrival: Check to see if the function you will attend is located in the NORTH or SOUTH building.

The TORONTO ACADEMY OF DENTISTRY, formerly the Toronto Dental Society, has been functioning continuously since 1890. It has provided leadership and service to both the profession and the community, and will continue to do so in the future.

The OBJECTS of the Academy are:

1. Advancement of the art and science of dentistry.
2. To promote the highest ideals of dental practice.
3. Cultivation of harmony and good fellowship among its Fellows, and among the members of the dental profession generally.

Some of the SPECIFIC SERVICES provided are as follows:

1. The Annual WINTER CLINIC.
2. After hours EMERGENCY TREATMENT service for the public.
3. The Annual WINTER CLINIC/INFORMATION BOOK, a directory of dental organizations.
4. PUBLIC RELATIONS, an experienced staff person to answer the public's queries and complaints.
5. An ELECTED COUNCIL, representing all Metro Toronto dentists and their local component societies.
6. CO-ORDINATION of dental and fellowship functions within Metro Toronto.
7. DENTAL MEETINGS with excellent programs and clinicians.
8. Assistance in formation of new STUDY GROUPS.
9. HONOURARY LIFE MEMBERSHIP to recognize outstanding dentists.
10. Fellowship activities such as the Annual GOLF TOURNAMENT, CURLING BONSPIEL and SKI DAY.
11. MEDIATIONS SERVICES for the public.
12. COMMUNICATION with dental auxiliary organizations.
13. Provides an ASSOCIATE PLACEMENT service.
14. The **Toronto Community Professional Dental Association** which donates to charitable organizations.

This is our Academy.
Keep it strong. Support it, enjoy it.

Winter Clinic Chairman

It is our honour to extend greetings from The Toronto Academy of Dentistry. Hopefully the summer was enjoyable and we all can look forward to another year of excellent continuing education programs.

Once again The Toronto Academy of Dentistry's Winter Clinic Committee has put together a program that will benefit and satisfy the interests and needs of the entire dental team.

Winter Clinic truly offers something for everyone!

Provide the day as a staff incentive to keep the ideals of excellence alive in your office.

Hands-on workshops, demonstrations and product incentives – that's what this day is about.

Winter Clinic is a result of the hard work and dedication by the Committee that includes representation from The Ontario Dental Nurses & Assistants Association, The Ontario Dental Hygienists' Association and the Dental Industry Association of Canada. Our thanks to committee members and the Academy staff.

BDM Emergency Kit

- Designed to cope with the types of Emergency reactions which are most commonly encountered in dental practice
- Colour-Coded Labeling for easy identification
- Emergency Drug Refill order cards enclosed in each kit for fast, easy replacement
- Optional Computerized Automatic Renewal System ensuring Drug updates prior to expiration
- Insta Glucose for Diabetics
- Ammonia Inhalant
- Laerdal Pocket Mask primarily designed for mouth to mouth ventilation.
- Extra One-Way Valves available
- Can be supplied with oxygen inlet (optional) as an alternative to bag-valve-mask resuscitation
- Manufacturer's product monograms contain dosage, indications and administration of each drug

Be Prepared for any Emergency • Have one Kit in each Operator

• CONTENTS:

- 2 - Epinephrine Injection USP 1:1000 1 mg/ml (ampoule)
- 2 - Atropine Sulfate Injection USP 0.4 mg/ml (ampoule)
- 2 - Diphenhydramine HCl Injection USP 50 mg/ml (ampoule)
- 6 - Disposable Syringes 1cc 25G 5/8

GREETINGS FROM THE ONTARIO DENTAL NURSES AND ASSISTANTS ASSOCIATION

Trish Divell, CDR
President

On behalf of everyone at ODN & AA I am honoured to extend my warmest welcome to you. This is indeed a special educational opportunity for each of us; a time to learn, to enjoy, to anticipate. Thank you for joining your colleagues and friends.

The program offers a wide variety of interesting topics and keynote speakers. Continuing education with something for everyone. We trust that your experience at the 64th Annual Winter Clinic will be memorable. I look forward to meeting you at our membership booth located on the exhibit floor.

WELCOME FROM THE ONTARIO DENTAL HYGIENISTS' ASSOCIATION

Jeanine Nighswander, R.D.H.
President

Welcome to the Toronto Academy of Dentistry's 64th Annual Winter Clinic. Every member of the dental team will enjoy the exciting program of speakers as well as current information on dental products and equipment on view on the exhibit floor. The ODHA is very pleased to have been involved as a participant in the planning stages of the meeting.

As professionals we have the responsibility to keep current on new product knowledge, new procedures and standards of care. As a regular and important part of the continuing education opportunities, Winter Clinic also affords us the chance to network and socialize with our peers. On behalf of ODHA I would like to thank our official representative, Eva Lissia for all her efforts in the planning. Thank you Raisyl Wagman, the Executive

Administrator of the Toronto Academy of Dentistry, for providing us with this wonderful continuing education opportunity.

GREETINGS FROM THE DENTAL INDUSTRY ASSOCIATION OF CANADA

Barbara J. Brown
President

On behalf of the 100 members of the Dental Industry Association of Canada, I would like to extend to you a warm welcome to the Toronto Academy of Dentistry's 64th Annual Winter Clinic.

During the past months our Industry Relations Committee has worked diligently with the Toronto Academy of Dentistry Winter Clinic Committee to develop an exhibit floor that compliments your scientific program, bringing you innovative solutions to your evolving practice needs.

I invite you to visit the exhibit floor and spend time testing the new products and services that will enhance your convention experience.

The Dental Industry is a vibrant, exciting business and we look forward to sharing valuable time with you. Have a great show! It will be our privilege to see you there.

A Message from Mayor Mel Lastman

It is my pleasure to extend greetings and a warm welcome to everyone participating in the 64th Annual Winter Clinic presented by the Toronto Academy of Dentistry.

This one-day convention, which offers clinical presentations and a trade show is an excellent opportunity for dentists, dental nurses and assistants, dental hygienists and exhibitors to share their knowledge, exchange information and ideas, and renew old friendships or create new ones.

Whether you are from Toronto or visiting for the Winter Clinic, I invite you to take time from your busy schedule to explore the thriving neighborhoods that reflect our cultural diversity, enjoy world-class dining and entertainment, and the many exciting attractions our unique and vibrant city has to offer.

On behalf of Toronto Council and the 2.5 million people of our great city, I congratulate the Toronto Academy of Dentistry for your outstanding leadership, and thank the dental profession for keeping all our smiles looking so good. Have an enjoyable clinic and a great time in Toronto.

Cordially,

Mel Lastman
Mayor

November 2001

Schedule for Winter Clinic Day

Baluke Dental Studios, Dental Services Group of Toronto and Pow Laboratories have joined forces in order to offer a unique educational experience for the attendees of the 2001 Toronto Academy of Dentistry's Winter Clinic.

Dental Technology is constantly changing and we would like to share the latest state of the art laboratory techniques and opportunities with our dental team partners. Our three labs have always been committed to quality continuing education in order to maintain the highest standards of care while enjoying collaborative relationships with our dental partners.

By combining our resources we can offer a full spectrum of expertise and laboratory product information.

Please join us at the Winter Clinic for our presentations at Booth #724, 726 & 728

Identify your practice needs to **Global Dental Microscopes & Obtura Spartan** and receive a one-on-one consultation.

Global Dental Microscopes. Clarity of vision. More confidence in dealing with complex situations because you can see in comfort with no back strain. Find out how Microscopes can benefit your practice.

Visit us at booth #412, 414.

Biodent

A New Light in Endodontic Post Reconstruction and Core Build-up

In this workshop you will learn how to deal with the many limitations we face with endodontic post insertion to core build-up. Some of those limitations include the lack of control we have over dual composite cement and bonding. You will also learn why so many endodontic post reconstructions fail and how to save 5 to 10 minutes per post insertion to the core build-up.

The 'NO MAINTENANCE & NO SURPRISES' Amalgam Waste Management Solution.

In this workshop you will learn what to look for when you shop for an amalgam separator so as to avoid frustrations, surprises and unexpected costs. Also, you will discover the advantages of renting your amalgam separator instead of buying one. Finally, we will describe the benefits of using Metasys's One-Stop, all inclusive, solution.

Please join us at booth #713, 715

Featuring

RISK MANAGEMENT FOR YOUNG DENTISTS - What You Always Wanted to Know...but Were Never Told in Dental School!

Presented by James M. MacMillan B.A., LL.B.

Mr. MacMillan is currently in private practice in Toronto. His practice, although general, deals mostly with health law and litigation.

From 1990-1995 he was administrator of the Professional Liability Programme at the Royal College of Dental Surgeon of Ontario.

TIME: 12:00 p.m.-1:00 p.m.
ROOM: 203 D

Join the Ontario Academy of General Dentistry and James MacMillan, B.A., LL.B. for an hour of insightful anecdotes, important facts and legal ramifications every young dentist needs to know when practicing dentistry today.

YOU WILL LEARN...

- How to deal with difficult patients and situations
- How to understand the changing risks in dentistry
- Why your medical records are your first line of defense and many more risk management strategies.

SPECIAL BENEFITS OF ATTENDING ARE...

Interaction with a small group of your contemporaries to discuss issues facing new dentists.

WHO SHOULD ATTEND?

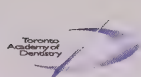

4th Year Dental Students and 2000 & 2001 Grads

This is a limited seating session, so register today!

NAME: _____ FAX#: _____

**TO ATTEND THIS LUNCH AND LEARN, YOU MUST ALREADY BE REGISTERED FOR WINTER CLINIC
(registration form on page 9).**

CONFIRMATIONS WILL BE MAILED ONCE BOTH REGISTRATION FORMS ARE RECEIVED.

TORONTO ACADEMY OF DENTISTRY PHOTOGRAPHY CONTEST

TO BE HELD AT WINTER CLINIC ON THURSDAY NOVEMBER 15, 2001

Special Thanks To:
Kodak Canada Inc.
For sponsoring the Photography Contest

1. All registrants of the Winter Clinic (Dentists, Hygienists, Assistants, Receptionists, Technologists and Exhibitors) are eligible to enter.
2. A maximum of three photographs per person. **Entries may be digital or conventional** (digital and conventional pictures will be judged separately).
3. Maximum size of the image is 11"x 14". **All images must be mounted on white (only) mat board.** Maximum size of the mat board (16" x 20"). **Only white over mounts are allowed.** No frames or glass will be accepted.
4. **Categories are:**

People

Nature

Action

Ontario

5. A soft copy must be included with all Digital Picture entries.
6. Entries may be mailed or brought in person to:
The Toronto Academy of Dentistry
902-170 Bloor Street West
Toronto, Ontario, M5S 1T9

Must Arrive no later than Thursday, November 1, 2001

7. Winners will be announced and prizes will be awarded at 12 noon on the exhibit floor. All decisions made by the Judges are final.
Prizes will be awarded for each category, plus best overall shot.
8. All entries may be picked up at Winter Clinic, or at the Academy office after November 19, 2001.
9. Name, Address, and Phone Number of photographer must be printed on the back of each photo.
10. Category and Title to be included with this information.

This form must be included with each entry.

I hereby allow the Toronto Academy of Dentistry to show my photograph on their web page, at Winter Clinic or in future Winter Clinic Publications.

Periochemotherapeutics into the 21st Century

Presented by Sebastian G. Ciancio, D.D.S.

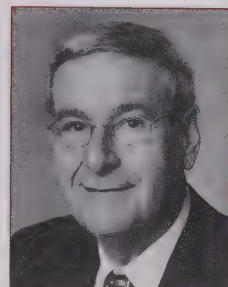

Sebastian Ciancio is Professor and Chairman in the Department of Periodontology and Director of the Center for Dental Studies at the State University of New York at Buffalo. In addition, he is the Clinical Professor in the Department of Pharmacology at the University and a Consultant for the Veterans Administration Medical Center and the Erie County Medical Center.

He has authored and co-authored well over 100 publications pertaining to periodontal disease. Currently, Dr. Ciancio is editor of Biological Therapies in Dentistry, a bi-monthly newsletter for dental professionals, editor of Periodontal Insights and consultant for the Journal of Periodontology.

He is also listed as Who's Who in Continuing Education as a leading continuing education lecturer.

TIME: 9:00 am - 4:30 pm
ROOM: 203 AB

CHAIRPERSON: Dr. Dave Hanmer (am)
Dr. Anthony Liscio (pm)

Speakers at a Glance

In this 21st century every general practitioner and hygienist will be treating more older patients than ever before. Dentists will be spending more time making diagnostic decisions and writing prescriptions. Advances in pharmacology will modify current methods of therapy. Dental professionals must prepare for major changes in patient management focusing on advanced therapeutics to treat and manage patients with chronic illnesses who are living longer. Allied health professionals must cooperate in an effort to meet the health care needs of tomorrow.

Course Outline

Principles of Pharmacology relevant
to Treatment Planning
Oral Manifestations of Systemic
Medications
Patient's Requiring Antibiotic
Prophylaxis
Mouthrinses, Dentifrices, Irrigants
Principles of Perio-Chemotherapeutics
Antibiotics & Periodontal Therapy
Root Surface Modification
Controlled Delivery of Antibiotics

You will learn to...

- Clinically understand the beneficial and adverse effects associated with medications the patients are already taking, as well as, medications prescribed by the dentist
- Clinically understand the various medications both topical and subgingival and systemic, currently suggested as adjuncts to periodontal therapy.

Other topics to be reviewed include:

- Irrigation
- Expanded uses for topical chemotherapeutic agents
- The role of surgical and nonsurgical periodontal therapy in patient treatment planning.

Special benefits of attending...

You will receive valuable information that will assist you in daily decision-making when caring for patients being treated with drugs.

Who should attend?

Dentists (general practitioners and specialists) who prescribe drugs to their patients.

Dental hygienists who treat patients with chronic illnesses as well as the elderly.

Dental staff members who assist patients in their medical history reports.

**DR. CIANCIO'S LECTURE IS CO-SPONSORED BY PFIZER/WARNER LAMBERT
& DEN-MAT CORPORATION**

Aesthetic Dental Treatments and Materials for the New Millennium

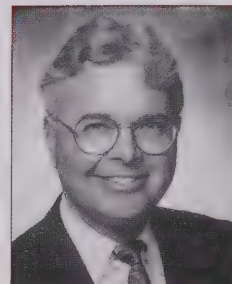

Presented by James R. Dunn, D.D.S.

Dr. James R. Dunn lectures and directs workshops nationally and internationally on clinical aesthetic bonding treatments. He is an active member in the American Academy of Esthetic Dentistry and the American Academy of Cosmetic Dentistry. Dr. James Dunn is a full time faculty member at the School of Dentistry at Loma Linda University in California.

TIME: 9:00 am - 4:30 pm

ROOM: 202 ABCD

**CHAIRPERSON: Dr. Murray Wagman (am)
Dr. Tim Milligan (pm)**

This course will review the materials and techniques used in aesthetic dental bonded procedures and vital tooth whitening, and the physical attractiveness phenomenon which motivates many patients.

You will learn...

- The latest validated information on dentin liners, sealers, bonding systems and treatments
- Polymerization techniques: Which method is better, slow and low, or high and fast?
- Microdentistry: early caries detection and treatment, anterior direct composite bonding with natural shaded composites. Are the new composites competitors for ceramic?
- Composite placement and finishing
- Direct posterior composites, heavy body composites, matrix and wedging systems, placement, finishing and rebonding
- Anterior bonded porcelain veneers, preparation, temporization, and resin luting

Plus current information on in-office and home tooth whitening agents and treatments.

Special benefits of attending are...

Dr. James R. Dunn will describe in detail techniques on:

Dental Adhesives, Direct Composites, Porcelain Veneers, Vital Tooth Whitening

Who should attend?

Dentists and dental team members who are interested in expanding their knowledge and staying up-to-date on cosmetic and restorative dentistry.

DR. JAMES R. DUNN'S LECTURE IS CO-SPONSORED BY 3M ESPE

The Nutrition Link to Oral & Periodontal Diseases and Natural Approaches to Common Health Issues

Presented by Cheri Pentzien, R.D.H., B.Sc., Consultant

Cheri is a graduate from the University of Michigan where she received her Bachelor of Science Degree in Dental Hygiene with postgraduate studies in nutrition. Her lectures are recognized by professional academies for the highest level of mastership and fellowship continuing education hours to health care professionals.

Cheri is the President of Consulting Concepts, a training and consulting company based in West Bloomfield, Michigan. Cheri has been a consultant to research, educational and manufacturing companies throughout Canada and the United States for the past 17 years.

Speakers at a Glance

The Nutrition Link to Oral and Periodontal Diseases

TIME: 9:00 am - 11:30 am
ROOM: 206 CDEF

You will learn...

- Oral deficiency symptoms
- Natural agents including phytonutrients, vitamins, minerals, antioxidants and immune modulators.
- The integration of natural agents with mechanical therapies for plaque removal, including irrigation therapy
- Selection of Pharmaceutical grade supplements and protocols for patient co-therapies will be discussed

Special benefits of attending are...

You will review clinical studies and research in the area of Preventive Dentistry.

Who should attend?

Cheri's ability to inspire makes this seminar a revitalizing and challenging experience to the entire dental team.

"Cheri with her wonderful enthusiasm and knowledge for periodontics, has continuously infused excitement into my periodontal practice."

Michael Dwyer, D.D.S., M.S.
Texas

Natural Approaches to Common Health Issues... Geared to the Dental Professional

TIME: 2:00 pm - 4:30 pm
ROOM: 206 CDEF

CHAIRPERSON: Eva Lissia

With the epidemic levels of chronic diseases including heart disease, cancer, diabetes, arthritis, Alzheimer's disease and prematuring aging, we must focus on the importance of nutrition as a stabilizing force in health and as a powerful co-therapy to improve health, energy, vitality and quality of life.

You will learn...

Natural approaches to:

- Low energy/chronic fatigue
- Carpal Tunnel Eye Strain
- Back Health Female/Male Issues
- Hypoglycemia/Weight Management
- Cholesterol/Heart Health
- A self-diagnostic exercise and question & answer period will be included.

Special benefits of attending are...

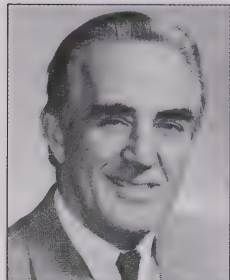

Gain insightful knowledge on controlling those health problems that plague your everyday lifestyle.

Who should attend?

Anyone who like to educate themselves on health issues and the importance of nutrition

BOTH PRESENTATIONS CO-SPONSORED BY OPTIVA

The Control Of Periodontal Infections

The Ontario Society of Periodontists Presents The Charles H.M. Williams Memorial Lecture

2001 is the inaugural year for The Charles H.M. Memorial Williams Lecture presented by the Ontario Society of Periodontists in memory of Charles H. M. Williams, a pioneer in the field of Periodontics, who passed away in his 97th year.

During Dr. Williams's career he held many organizational positions including the Presidencies of the Royal College of Dentists of Canada, The American Academy of Periodontology and the Canadian Academy of Periodontology. Dr. Williams was presented with an Honourary Life Membership in 1989 from the Toronto Academy of Dentistry and other numerous awards from distinguished societies including an Honourary D.Sc. degree from McGill University. Dr. Williams was the inventor of Williams periodontal probe.

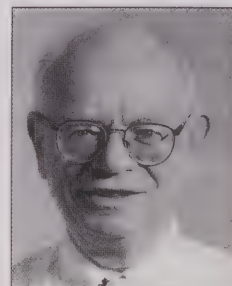

A respected and eminently successful practitioner, a teacher who inspired students with high ideals of service and manhood, a gentleman to whom honours are most deserving and modestly received, the Ontario Society of Periodontists proudly presents this lecture in his name.

The Control of Periodontal Infections Presented by Sigmund S. Socransky, D.D.S.

Dr. Socransky received his D.D.S. from the University of Toronto in 1957. He studied microbiology and periodontology at Harvard School of Medicine, receiving a certificate in 1961. Dr. Socransky currently is a Senior Member of the Staff and Head of the Department of Periodontology at the Forsyth Institute in Boston, Massachusetts.

Dr. Socransky has published over 500 original papers and abstracts and has received numerous awards including the 1999 Norton M. Ross Award for Excellence in Clinical Research from the American Dental Association.

He served as a member of the Board of Scientific Councilors for NIDCR and a member of the Oral Biology and Medicine Study Section of NIH. Dr. Socransky has been on the editorial boards of numerous journals including Oral Microbiology and Immunology, Journal of Clinical Periodontology and Journal of Periodontology.

TIME: 9:00 am - 4:30 pm

ROOM: 201 AB

CHAIRPERSON: Dr. Alan Winnick

Periodontal infections are caused by organisms that reside at or below the gingival margin. These organisms form a 'biofilm' that adheres to the tooth surface. This programme will review the current thinking on the microbiologic basis of periodontal disease and suggest, based on the current literature, how scaling and root planing, surgery and the use of antibiotics affect the pathogenic microbiota and influence the course of periodontal disease.

You will learn...

- What is the periodontal "biofilm"?
- When is scaling and root planing appropriate?
- What is the effect of systemic antibiotics on the course of the disease process?
- When is surgery the treatment of choice?
- How do environmental factors such as smoking affect the periodontal infection?
- What role does genetics play?

Special benefits of attending are...

Offer your patients advice and treatment alternatives based on sound biologic evidence for the control of their periodontal infections.

Who should attend?

Dentists and hygienists that wish to review the latest thinking on the pathogenesis and treatment of periodontal infections.

THIS LECTURE IS CO-SPONSORED BY THE ONTARIO SOCIETY OF PERIODONTISTS

New Techniques, Materials & Concepts for Everyday Crown & Bridge

A Comprehensive "Hands-On" Participation Course Presented by Arun Nayyar, D.M.D., MS

Dr. Arun Nayyar is in private practice in Atlanta, Georgia. He is the former Director of Fixed Prosthodontics at the Medical College of Georgia, School of Dentistry.

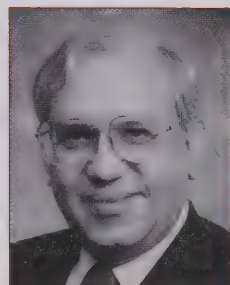

Dr. Nayyar is recognized as a distinguished speaker by the Federation Dentaire International and he is a regularly invited speaker at national and international meetings including the American Dental Association, the Hinman, Yankee, Chicago Midwinter and the World Prosthodontic Congress, just to name a few.

TIME: 9:00 am - 11:30 am

2:00 pm - 4:30 pm

ROOM: 201 CD

**CHAIRPERSON: Dr. Peter Tonisson (am)
Dr. Don Stewart (pm)**

*Everyday Techniques to
Take Back to Your Office!*

This unique workshop is a rare opportunity for dentists to learn new clinical procedures and materials used in Fixed Restorative dentistry. Each exercise has been carefully designed with emphasis on efficient, streamlined procedures suitable for today's dental practices. Products from leading manufacturers will give you an opportunity to manipulate, evaluate, consult and make selections appropriate for your practice.

You will learn...

At the termination of this workshop, each dentist will:

- Do the NO gingival retraction – final impression
- Make an esthetic analysis with flowable composite
- Write a work authorization using shade tabs and surface characteristics
- Use new polishing wheels for chairside finishing of rough porcelain surfaces
- Work with Low Fusing Ceramic materials and see their chairside advantages
- Make fast and simple resin restorations for single and multiple teeth
- Use a labial and an incisal index for communicating incisal and labial edge for esthetics
- Manipulate cement systems for better seating of crowns
- Use new impression mixing machines
- Use a new caries diagnosis system

Special benefits of attending are...

Participation workshops allow a hands-on approach to learning.

Who should attend?

Dentists who are interested in learning new techniques to help them in their daily restorative care and who wish to have an opportunity to try and question these techniques with the guidance of an exceptional, recognized authority and teacher beside them. Dentists are encouraged to attend with an assistant.

THIS IS A LIMITED ATTENDANCE WORKSHOP, DENTISTS AND ASSISTANTS MUST PRE-REGISTER.

How to Make People Like You in 90 Seconds or Less

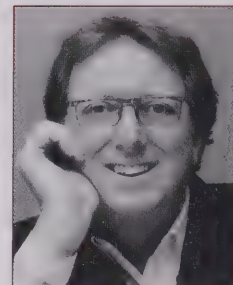

Presented by **Nicholas Boothman**

Nicholas Boothman teaches face-to-face communication skills to people who want to connect and express themselves with confidence.

British by birth, Canadian by location, and Universal in his message, Nick brings a fresh perspective to effectively connecting people to people in this world of high technology.

*Nick is a licensed Master Practitioner of Neuro Linguistic Programming and the author of the best selling book **How to Make People Like You in 90 Seconds or Less**.*

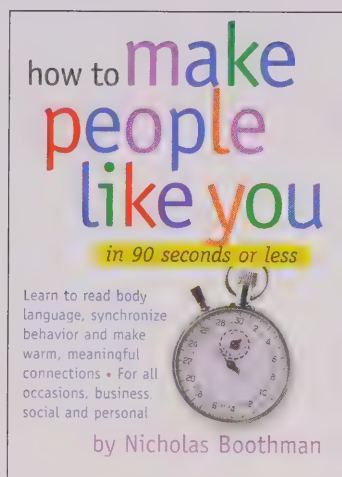

Mr. Boothman was featured in an article written by Ali Sharrif in the Saturday, June 7th edition of the Toronto Star Life section. Entitled The Fine Art of Making Snap Judgments; Log on to www.thestar.com

TIME: 9:00 am - 11:30 am

ROOM: 205 ABCD

CHAIRPERSON: Dr. Arnie Weingarten

The Promise:

Maximize the most important 90 seconds of any relationship, business, social or personal.

The Results:

Better meetings, better dates, better conversations and more powerful connections.

"A classic"
The Washington Post

"A phenomenal hit"
AT&T

"Instant popularity"
Redbook

"This man is magic"
Air Canada

"Nick is truly a breath of fresh air. His engaging style and highly relevant content trigger personal insights that provide significant pay-off... and leave you eager to continue learning"
Ernst & Young

You will learn to...

- Whether you're selling, managing, job hunting, negotiating, pitching an idea, applying for dental school, joining a new group, or on your knees with a marriage proposal, the secret of success is based on connecting with other people.
- Never again leave the making of an important first impression to chance. You have approximately 90 seconds to make a favourable impact when you meet someone new. What happens in those 90 seconds can determine whether you succeed or fail...

Special benefits of attending...

This program will help you succeed at making meaningful connections in your business and social lives.

Who should attend?

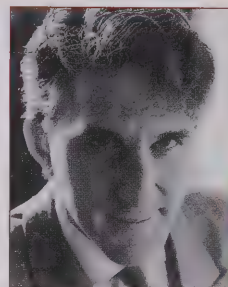

This is a **must see** program for the entire dental team.

Changing Views in the Management of Short Term Pain & Drugs, Lies & Videotapes

Presented by Dr. Brian Goldman

Dr. Goldman is a staff emergency physician at Mount Sinai Hospital in Toronto, and an Assistant Professor in the Department of Family and Community Medicine at the University of Toronto.

He has written numerous articles and book chapters on pain management.

Speakers at a Glance

**POWER
HOUR!**

Changing Views in the Management of Short Term Pain

TIME: 2:00 pm - 3:00 pm

ROOM: 205 ABCD

CHAIRPERSON: Dr. Joel Kachuck

Dental professionals are experts in the management of short-term dental pain that accompanies dental procedures. However, many dental professionals find that there is a gap in the provision of analgesics for use at home:

You will learn to...

- Review state of the art concepts in the mechanisms of pain
- Learn tips on the appropriate outpatient management of short term pain
- Discuss topics on the use of nonsteroidal anti-inflammatory drugs, COX-II inhibitors, adjuvant drugs and SR as well as immediate release opioid analgesics.

Special benefits of attending are...

You will receive up-to-date information on dental pharmacology.

Who should attend?

Dentists, hygienists and dental assistants who want practical information on the clinical aspects of pain management.

**POWER
HOUR!**

Drugs Lies and Videotapes

TIME: 3:15 pm - 4:15 pm

ROOM: 205 ABCD

CHAIRPERSON: Dr. Joel Kachuck

Drug seekers are individuals that exploit the trust of dentists in order to obtain prescription painkillers for resale on the street.

You will learn...

Through videotaped vignettes as well as didactic material, the dental professional will learn to acquaint themselves with the techniques and scams used by drug seekers to feign illnesses and forge prescriptions.

Special benefits of attending are...

The aim of this presentation is to teach attendees methods to thwart drug seekers without comprising patient care.

Who should attend?

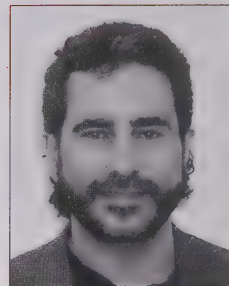

Dentists, hygienists, dental assistants and front office staff who want to educate themselves on drug abuse by patients.

Endodontics: Diagnosis & Emergency Treatment and Microendodontics: Endodontics in the 21st Century

Presented by Samuel I. Kratchman, D.M.D.

A native New Yorker, Dr. Samuel Kratchman received his B.S. and D.M.D. from Tufts University in Boston, Massachusetts and then went on to receive a certificate in Endodontics from the University of Pennsylvania School of Dental Medicine.

Dr. Kratchman is the Assistant Director of Graduate Endodontics and Surgical Director of Endodontics at the University of Pennsylvania. He has lectured on many topics in endodontics throughout the United States Europe, Scandinavia and Asia.

TIME: 9:00 am - 11:30 am

ROOM: 206 AB

CHAIRPERSON: Dr. Shayne Lipton

Dr. Kratchman will present a two-part lecture series on *Diagnosis & Emergency and Microendodontics*.

Diagnosis and Emergency Treatment:

Before performing endodontics we must be confident making the proper diagnosis and be able to treat those patients in acute pain. Often the diagnosis can be the most difficult part. The lecture will be clinically oriented, showing unusual cases that have been collected over the past twelve years in practice and from the clinic at the University of Pennsylvania Dental School.

Microendodontics: Endodontics in the 21st Century.

The specialty of endodontics has seen enormous changes in technology over recent years. With the introduction of the operating microscope, nickel titanium rotary instruments, and thermoplasticized gutta percha, the way we perform root canal has changed forever.

You will learn...

- The sensitivity tests used to obtain an accurate diagnosis and techniques to accommodate those anxious patients in acute pain.
- New instruments on the market, showing their uses as well as their limitations
- You will go through, step-by-step, one clinical case as well as showing numerous other cases
- You will become familiar with the new technology and be able to incorporate this technique into one's own practice.

Special benefits of attending are...

The entire dental team will benefit from learning about diagnosing, treating and the evolving technologies associated with endodontics.

Who should attend?

Dentists (generalists and specialists) who want up-to-date information in the field of endodontics.

Hygienists who want to learn more about endodontic diagnosis.

Dental Assistants who want to learn more about endodontic procedures and technologies.

**DR. SAMUEL KRATCHMAN'S LECTURE IS CO-SPONSORED BY OBTURA SPARTAN
AND THE ONTARIO SOCIETY OF ENDODONTISTS**

The Learning Express presents Computer Maintenance & Security and Intro to PowerPoint

Presented by Lyndon Smith and Karen Zidenberg

The Learning Express was created by Lyndon Smith and Karen Zidenberg, two professionals in the dental industry who identified an urgent need for specialized software training and CE Programs for dental professionals.

TIME: 9:00 am - 12:00 pm
Computer Maintenance & Security
2:00 pm - 5:00 pm
Intro to PowerPoint

ROOM: 203C

CHAIRPERSON: Joy McNish (am)
Esme Smith (pm)

- How can I quickly learn the computer skills I need to keep up with the changing technology?
- What role can software play in simplifying my daily tasks?
- Where can I learn to apply generic software tools for clinical and marketing purposes?

You will learn to...

The morning presentation is ideally suited to everyone using a computer.

Computer Maintenance & Security will teach you:

- **File Management:** Understanding and organizing documents including folders and locations
- **Virus Protection:** Software choices and need for regular updates
- **Firewalls:** What are they and why would you use one?
- **Back Up and Restore:** Importance of how it works
- **Disk Defragmenter, Disk Clean Up and Scan Disk:** What is it and when to use it
- **Creating an Emergency Boot Disk:** Why this is so important

The afternoon presentation could be used to create case presentations, a kiosk in the reception area to familiarize patients with the office as well as a new staff orientation. **Intro to PowerPoint** will teach you:

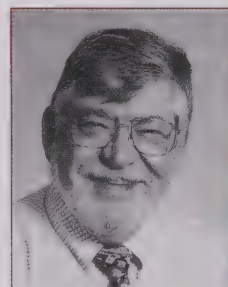

- 10 steps to completing a PowerPoint presentation
- Using the master slide
- Formatting text and bullets
- Inserting pictures and clipart
- Slide transitions and show options
- Pack n Go: packing and unpacking a presentation

Special benefits of attending are...

Keeping abreast of the current and emerging technologies as well as the ongoing development of new and specialized computer skills for the **entire** dental team.

Who should attend?

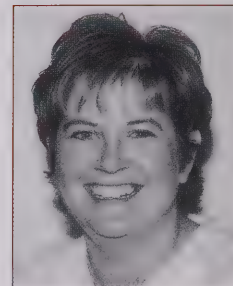

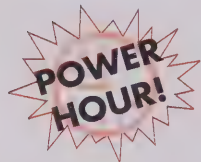

- **Participants must be familiar with a Windows environment.**
- **This is a limited attendance workshop and you must pre-register.**

An Esthetic Choice - The Art & Science of Whitening

Presented by Dani Botbyl, RDH

Dani Botbyl is currently a member of the Faculty of Dental Programs at Niagara College of Applied Arts and Technology in Welland, Ontario where she teaches first and second year dental hygiene.

Dani Botbyl has presented numerous lectures to oral health professionals across the country focusing on topics such as ultrasonics, whitening, air polishing and dentin hypersensitivity.

TIME: 9:00 am - 10:00 am
ROOM: 201EF

Esthetic procedures are amongst the fastest growing areas of dentistry. Tooth whitening has become a recognized and reasonable alternative in the esthetics discipline.

You will learn...

- Review of whitening chemistry and safety
- Improve client compliance through minimizing sensitivity and side effects

Special benefits of attending are...

Analysis of various whitening options focusing on the state of the science, in-office whitening procedures that are taking the industry by storm.

Who should attend?

Dentists, hygienists, dental assistants and front office staff who want to help their patients better understand the multitude of information and choices available today.

Dani Botbyl's lecture is sponsored by Dentsply Canada

The Art and Science of Investing... The Most Disciplined Way of Managing Your Investments

Presented by Jonathan M. Wellum

Jonathan Wellum, formerly President of AIC Limited, co-founded Georgian Capital Partners and serves as Chief Executive Officer, Director, and chairs the investment committee.

Jonathan has been recognized as one of Canada's leading mutual fund managers, twice named 'Fund Manager of the Year' since 1995. Jonathan earned his B.Comm and M.B.A. from McMaster University and a B. Sc. from the University of Waterloo. He completed his formal education with an M.A. in theology and philosophy from Trinity Seminary in Chicago and also holds the CFA designation.

Prior to joining AIC, Jonathan developed strong expertise in the Canadian and U.S. markets through his tenure in corporate accounting at Deloitte & Touche and CUMIS.

TIME: 10:15 am - 11:15 am
3:15 pm - 4:15 pm (repeat)

ROOM: 201 EF

CHAIRPERSON: Dr. Rita Kilislian (am)
Dr. John Jenkins (pm)

Jonathan Wellum is recognized as a pioneer and trendsetter in the Canadian investment industry. Join us for this rare opportunity as he shares his insights and investment strategy.

Speakers at a Glance

You will learn...

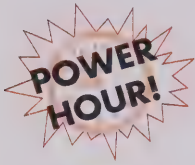

- The drill, fill and bill approach to creating wealth in the stock market.
- Getting back to the basics of investing!

Who should attend?

Dentists, hygienists and dental assistants who want to learn more about money management.

MR. WELLUM'S LECTURE IS SPONSORED BY RAYMOND JAMES LTD.

Glove Related Allergies - The Way Forward

Presented by Harry Kirk

Harry Kirk is the Technical and International Development Director for The Nitritex Group of Companies with offices around the world. Mr. Kirk spent 10 years in the Far East where he ran a manufacturing facility producing both latex and non-latex medical and dental gloves.

Mr. Harry Kirk has given many seminars and presentations to dental professionals in Denmark, Norway, Sweden, Germany and England on all aspects of glove development and allergies.

TIME: 9:00 am - 10:00 am

ROOM: 203 D

CHAIRPERSON: Dr. Jack Fingrut

You will learn to...

- Determine what is an allergic reaction
- Types of allergic reactions and their causes
- Recognizing allergic reactions
- Glove myths and misconceptions
- Glove types – pluses and minuses
- Managing allergies
- Glove development
- Question and answer session

Special benefits of attending are...

Mr. Kirk promises a “no holds barred” session which may challenge many of your ideas about gloves!

Who should attend?

Dentists, hygienists and dental assistants who are concerned and perhaps bothered by glove related allergies.

SPONSORED BY THE NITRITEX GROUP OF COMPANIES

**Presented by Marco Caminiti, B.Sc., D.D.S., M.Ed.,
Dip OMFS, FRCD (C)**

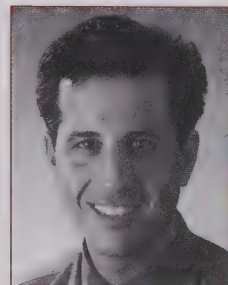

Dr. Caminiti received his dental degree from McGill University and his Oral and Maxillofacial Surgical Degree from the University of Toronto. He received a Master's Degree in Surgical Education through the Department of Surgery at the University of Toronto.

He is an Assistant Professor at the University of Toronto, Faculty of Dentistry and in the Centre for Research in Education in the Faculty of Medicine. His research interests include Orthognathic surgery and expert skill development.

**TIME: 10:15 am - 11:15 am
ROOM: 203D**

CHAIRPERSON: Dr. Flavio Turchet

Nothing can be frustrating when an expected simple extraction turns into a "nightmare". This seminar will introduce practitioners to methods that help to overcome and avoid common problems when extracting teeth.

Speakers at a Glance

You will learn...

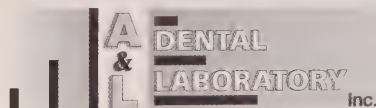

With the use of case examples, extractions highlighted by current surgical practices.

Special benefits of attending are...

The introduction of key instruments and techniques will hopefully stimulate what should be an enjoyable part of your practice.

Who should attend?

Dentists, hygienists and dental assistants and front office staff who wish to educate themselves on oral surgery.

Captivating

*Has the audience
laughing out loud*

Unique presentation

*Striking ability to
interpret each
individual's
personality
characteristics...*

Your handwriting is much more than those marks you make on paper! You will uncover "secrets" contained within your own handwriting that may well surprise you! After this presentation:

You will learn to...

- Never look at a note from a family member or colleague in the same way.
- "Reading between the lines" when you receive that written fax, letter or note will give you valuable insights to enhance your understanding and communication with friends and business associates.
- You'll be able to easily identify leadership strengths and other personality strengths in your own writing.

Special benefits of attending are...

Participants gain valuable self-awareness and the tools to understanding co-workers, patients or potential job candidates.

Who should attend?

Dental staff members who are interested in self-discovery.

"Doctor, It's Someone From The College"

Presented by James M. MacMillan, B.A., LL.B.

Mr. MacMillan is currently in private practice in Toronto. His practice, although general, deals mostly with health law and litigation.

From 1990-1995 he was administrator of the Professional Liability Programme at the Royal College of Dental Surgeons of Ontario.

TIME: 2:00 pm - 3:00 pm

ROOM: 203D

CHAIRPERSON: Dr. Minna Stein

A call from the College is one of the private nightmares that any member of a self-regulated profession lives with every day. Nonetheless, the Colleges established under the Regulated Health Professions Act have recently come under fire in the popular press for not being aggressive enough in investigating and prosecuting members.

Speakers at a Glance

You will learn to...

- Be aware of the legal landscape around every dentist and exactly what they and the College can and cannot do.

Special benefits of attending are...

- Mr. MacMillan draws on a decade of experience advising dentists to outline the practical, as well as the legal, meaning of the College's powers and the practical steps that dentists can take now to avoid confrontation and the after problems that arise to defend themselves.

Who should attend?

Dentists, hygienists and dental assistants and front office staff who wish to educate themselves on the legality of their profession.

"From prep to placement, CEREC gives me complete clinical confidence."

Dr. Gina Pfeiffer,
Sioux Falls, SD

CEREC single-visit restorations have been successfully used for over 15 years and in millions of cases worldwide – with over 40 clinical studies confirming their longevity, biocompatibility and efficacy. You'll love the way CEREC puts you in complete control of the restoration from start to finish. Your patients will appreciate CEREC's ability to preserve existing tooth structure, and they'll brag about the stunning final result.

- Reduce overhead, avoid temporaries and impression material, and eliminate lab fees
- Single-visit chairside restorations provide optimal return-on-investment and increased profits
- Create fillings, onlays, crowns and veneers with wear characteristics virtually identical to natural tooth enamel
- Ivoclar, VITA® and 3M™ materials provide extremely high fracture strength for long-term restoration confidence
- Ultrafine particle size offers excellent polishability and working properties

Improve your practice and impress your patients with CEREC.

Brush-a-mania

The Toronto Academy of Dentistry in co-operation with the Rotary Club of Toronto – Don Mills organized Brush-a-Mania 2001. Mayor Mel Lastman proclaimed Friday, April 6, 2001 Dental Health Day in the City of Toronto. 4633 students in the City of Toronto brushed their teeth simultaneously for three minutes breaking the old record set last year in Thunder Bay.

Each school had an ODA member dentist providing oral hygiene instruction and a member of the Rotary Club for support. Each student received a loot bag with a toothbrush, sugar-free gum, a bookmark, stickers, as well as, ODA stickers and magnets.

This event was held primarily to raise dental awareness in the students participating in Brush-a-Mania. However, in addition to raising dental awareness, over \$2,000 was raised for the International Cleft Lip and Palate Foundation.

Brush-a-Mania 2002 is set for Friday, April 5th.
For further information, please contact Raffy Chouljian at

Meetings:

Planning a Meeting? Contact the Academy Office at (416) 967-5649 and we will record the date on the calendar and will inform you if there is a conflict with another meeting. Please advise speaker, location and contact person.

Our website at www.tordent.com lists all dental meetings recorded at our office and is updated monthly.

Associate Placement Services:

Looking for an associate in Metropolitan Toronto?
Looking for an associateship?
Call the Academy Office at (416) 967-5649.

Academy Event Dates:

All Societies Meeting
Wednesday, October 24th, 2001
Inn on the Park

1st Stated Meeting
to be announced

Ski Day
Osler Bluffs
Friday, February 22nd, 2002

Curling Bonspiel
Friday, March 22nd, 2002

CIT Toronto Dental Golf Classic
Friday, June 21, 2002
Nobleton Lakes Golf Club

Future Winter Clinic Dates:

We are pleased to inform you
Winter Clinic will take place
next year on:

Friday,
November 8th, 2002

Emergency Services:

The Academy offers a daytime referral service as well as after hours emergency service.

There is only one telephone number for patients to call-during the day and after hours,
(416) 967-5649.

After hours the number is call forwarded to an answering service.

Leave only (416) 967-5649 on your answering machine.

**DAYTIME HOURS MONDAY -
FRIDAY: 8:30 a.m. - 4:30 p.m.**

**AFTER HOURS:
Weekdays - 4:30 - 11:00 p.m.**

**SATURDAY, SUNDAY, HOLIDAYS
and any day the office is closed:
9:00 a.m. - 11:00 p.m.**

If you are interested in becoming a member of the After Hours Emergency Service and your practice is in Metropolitan Toronto and you are an ODA member,

please call the Academy office at (416) 967-5649.

Every patient treated by an Emergency Service dentist on call is given a treatment record to take back to the patient's regular dentist.

Dr. Shayne Lipton
Chairman, Emergency Services

The Toronto Community Professional Dental Association continues in its efforts to donate to worthy beneficiaries.

Each year endowments are made based on the following categories:

- Toronto Based
- Dental Related
- Child Oriented
- Education/Research
- Challenged Individuals
- Deprived Individuals

The dental profession and the dental industry continue to support the Academy's continuing education programs and social events and as a result in 2000 the Toronto Community Professional Dental Association was able to make a donation to:

CHILDREN'S AID
FOUNDATION

• Children's Aid Society Foundation

(includes Children's Aid Society, The Catholic Children's Aid Society, The Jewish Family and Child Services). Dental Treatment provided to children through the Toronto Academy of Dentistry Fund.

The Toronto Community Professional Dental Association, through its Endowment Fund, established the Toronto Academy of Dentistry Dental Fund at the Children's Aid Foundation. This fund services some of the 40,000 children in Metropolitan Toronto under the auspices of The Children's Aid Society, the Catholic Children's Aid Society and The Jewish Family and Child Services. The monies raised has helped approximately 40 children who otherwise would have been unable to receive those services so essential to their dental and emotional well being.

Last year, through ticket and auction sales at the Teddy Bear Affair, we donated \$58,000.00 to the Toronto Academy of Dentistry Dental Fund.

Once again, all proceeds from the sale of tickets by the Academy for this year's event, being held on Saturday, November 10th, 2001 will be allocated directly to our dental fund at the Children's Aid Foundation.

The **Teddy Bear Affair** attracts 900 of Toronto's corporate and social elite and it is considered by many to be the best gala in the city raising funds for thousands of high-risk children.

The Toronto Academy of Dentistry, through The Toronto Community Professional Dental Association thanks the profession and industry for enabling it to continue to identify and support worthy causes in the Greater Toronto area.

WE GOLFED “Fore” THE KIDS

The CIT Toronto Dental Golf Classic was held on Friday, June 22, 2001 at Nobleton Lakes Golf Club. The Toronto Academy of Dentistry, Toronto Central Dental Society, West Toronto Dental Society and North Toronto Dental Society teamed up with the industry to raise \$20,000.00 for the Bloorview MacMillan's Children Foundation.

Due to an overwhelming response in golf prizes from our gracious donors The Toronto Academy of Dentistry along with Toronto Central Dental Society, West Toronto Dental Society and North Toronto Dental Society donated their contributions to the tournament directly to Bloorview MacMillan.

Special thanks to Dave Lind and CIT, our tournament sponsor.

**Gilbert Chapnick, D.D.S., F.I.C.D.,
Mediations Coordinator**

The Toronto Academy of Dentistry and the Ontario Dental Association have established a mediation process which gives a patient an opportunity to express concern with regards to the dental care received and have this concern investigated without bias. Most of the 30-40 written complaints and many telephone enquiries we receive each year are resolved to the patient's satisfaction. As our committee has no legal status we are limited to the type of issue that can be mediated and at times it becomes necessary to refer a patient to the RCDSO.

To maintain patient trust and preserve dentistry as a profession, we must adhere to established ethical guidelines. Our patients must understand their treatment options and implications of postponing treatment. Costs of treatment must be discussed as well as the potential for failure and less than anticipated results. At all times we should be treating our patients with understanding and compassion. At no time should we give guarantees other than we will do our best.

Concerns are being raised with regards to overtreatment and undertreatment. With the wide array of materials and techniques that are available, dentists do differ as to their treatment for patients. Wise practitioners are careful not to pass judgement on care provided by others without appreciating the circumstances under which that care was rendered.

The responsibility of administering and resolving these issues is taken seriously by the members of the Mediation Committee and the Academy office staff. They must be commended for the service and advice they provide to both the public and the members of our profession.

Congratulations

Each year the Faculty of Dentistry, University of Toronto awards prizes donated by the Toronto Academy of Dentistry to two outstanding undergraduate students.

The 2001 Winners are:

Robert Alexander Kirsch

Award in Paedodontics – 4th Year

Reka Ferencz

Award in Community Dentistry – 3rd Year

Honourary Life Membership 2001

The Toronto Academy of Dentistry is proud to award its Honourary Life Membership to Dr. Allan Barry Chapnick.

**Allan Barry Chapnick, B.A., D.D.S.,
Dip. Endo., F.I.C.D., F.A.D.I., F.A.C.D.**

The Academy sets a very high standard and follows a number of criteria in selecting the persons for this award. One of the principal criteria that distinguish it from other similar citations is the contribution that the recipient has made to the Toronto Academy. In this regard, Barry is second to no one. For over 25 years he has assisted, guided and led this Academy.

Beginning in 1976 and continuing through the present, he has been Chairman of the most critical part of the Winter Clinic programme – the Group Clinics. In respect to that aspect, he maintains an encyclopaedic system in order to avoid duplication or superimposition. The entire structure of the Winter Clinic, as well as the operations of the Academy itself, benefits from this knowledge and his management.

The fact that he was President of the Academy in 1988-89, having previously chaired the Winter Clinic in the prior year, is somewhat incidental to the intense devotion that he has extended to it over the past quarter of a century.

However, the extraordinary part of Barry's career in dentistry and the community is its very magnitude.

The story begins with his first year as an undergraduate dental student at the University of Toronto when he was elected Class President. Barry maintained that position for each following year and in 1969 he was elected President of the Dental Student's Society. In his graduation year, 1970, he received the Dental Student Society's Award.

Barry then proceeded to Boston University Hospital undertaking an internship in 1970 and later a Stomatology Fellowship in 1971. He obtained his postgraduate Endodontics degree from the Boston University Henry Goldman School of Graduate Dentistry in 1974. Returning to Toronto he established his private endodontic practice and in 1977 joined the University of Toronto Faculty of Dentistry where he continues to be a lecturer and clinical instructor in the Department of Endodontics. In addition, he is an endodontic consultant at Mount Sinai Hospital and Humber Memorial Hospital.

However, the preceding was but a prologue for the manifold services that Barry has extended to his profession and community.

Succinctly, in respect of his profession, he has served locally, provincially, and nationally as President of the George Hare Endodontic Study Club (1979-1988), President of the North Toronto Dental Society (1980-1981), President of the Ontario Society of Endodontists (1988-1989) and President of the Canadian Academy of Endodontics. (1990-1991).

Other positions that he has held include: Chairman, Specialists Committee for the Ontario Dental Association (1990-1996), member Faculty Governing Council, University of Toronto, Faculty of Dentistry (1992-1995) and Dental Consultant, World Championship of Basketball, Toronto (1994). Barry is a member of no less than a total of 18 dental organizations.

In 1989, Barry was cited for his contributions to the profession by the Ontario Dental Association and presented with its Award of Merit. Additional honours include Fellowships in the International College of Dentists, the Pierre Fouchard Academy, the Academy of Dentistry International and the American College of Dentists.

Such a list of service and accomplishment would seem sufficient in any lifetime, however, Barry's most significant achievement occurred in the year 2000 when he became Alpha Omega's 93rd International President. The genesis of this originated in 1967 when he attended his first of 29 international conventions of the Alpha Omega Fraternity and was elected International Student Officer. Since that time, Barry has been an extremely active member (a phrase characteristic of all of his endeavours) of Alpha Omega. He has served as President of the Toronto Alumni Chapter (1986-1987). Internationally he was feature editor of the Alpha Omegan from 1971-1980. In 1994 he was Convention Chairman for the Alpha Omega International in Toronto.

Honourary Life Membership 2001

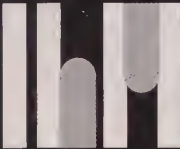

Meanwhile, Barry extended his service to his secular and religious community. He is a generous patron and contributor to the United Jewish Appeal, the Jerusalem Foundation, the Jewish National Fund, Canadian Friends of both Tel Aviv and the Hebrew University of Jerusalem, Baycrest Centre, the Israeli Cultural Foundation, and the Canadian Friends of the Technion and others. He is a member of Shaarei Shomayim Synagogue on whose board of governors he has served.

In spite of all the foregoing the most auspicious event of all occurred in 1974 when Barry married Jane. She is to be applauded for her remarkable patience and understanding sustaining and supporting the extensive commitments that Barry has assumed. Meanwhile, they have raised two fine sons Cary (24) a graduate of McGill University and Stephen (21) who presently attends McGill.

However, to those who know Barry the story hardly ends there. In fact, he does have another life that does not involve work and he pursues his recreation as avidly as his volunteerism. He attends Blue Jays, Maple Leafs, Raptors and Argonaut games as well as tennis matches. Physically he has limited himself to tennis, swimming, golf and skiing. He enjoys art, theatre, photography, travel and of note, gastronomy.

It is with the utmost respect that the Toronto Academy of Dentistry bestows upon Allan Barry Chapnick its most prestigious award, its Honourary Life Membership.

Toronto Academy of Dentistry Service Award

John C. Gillies, CAE

In recognition of his efforts to the dentists of Ontario, the Toronto Academy of Dentistry's Service Award is presented to Mr. John C. Gillies.

Mr. Gillies was born in Wheatley, Ontario and spent his early years in that village. After graduating from Waterloo Lutheran University with a Bachelor of Arts Degree in 1964, he returned to Wheatley to manage the family business. In 1970, he joined the Canadian Memorial Chiropractic College as Registrar. In 1974 he became the Executive Director of the Ontario Dental Association and is now residing in Toronto.

Mr. Gillies is known by ODA staff, ODA members, government, and stakeholders in dentistry in Ontario, other North American dental organizations, and not-for-profit organizations as the person who made ODA what it is today. He took a small office with an original staff of one and through his leadership and visionary abilities built it into what it is today, a North American leader in organized dentistry and association management, and has provided guidance to the membership in moving the association forward for the greater good of both the dental profession and the public.

As Ontario Dental Association Executive Director, Mr. Gillies has spoken before a wide variety of associations, civic groups and government organizations, both provincial and federal. From an association management viewpoint, Mr. Gillies has led the association through reviews and restructuring of the ODA's staff structures, governance model, committee structure, information technology, dental plan administration, and staff benefits plans. This has resulted in a strong foundation that will enable the organization to move forward and meet the challenges ahead. He has sought out and conducted state-of-the-art training for the Board of Directors, General Council, and member leaders of the Association, ensuring that they have access to the information they need to become strong leaders for the Association and their peers. He has been instrumental in adopting a knowledge-based decision-making structure within the ODA, and has provided valuable training to the member and staff leadership teams.

In addition to his work at the Ontario Dental Association, Mr. Gillies is an active member of the Canadian Society of Association Executives. He was one of the first Certified Association Executives in Canada. A former member of the Board of Directors of the national association and the Toronto chapter, he has served a two-year term as Chairman of the Canadian Institute of Law and Medicine and the American Society of Association Executives.

In 1991, Mr. Gillies was awarded the Canadian Dental Association Distinguished Service Award. In 1993, Mr. Gillies was awarded the Pinnacle Award by the Canadian Society of Association Executives in recognition of his outstanding career contributions to an association combined with dedicated service to the Canadian Society of Association Executives and a history of service to the community. In 2000 Mr. Gillies was awarded the Ontario Dental Association President's Award for exceptional accomplishments and service which resulted in major benefits to the dental profession in Ontario and Canada and the advancement of dental health care. In May 2001, he was presented with the Barnabus Day Award.

The Toronto Academy of Dentistry congratulates Mr. Gillies on 27 years of exemplary service to the dentists of Ontario.

TEST-DRIVE

ExperDent-Affiliated Study Groups

If you're looking for an incredible study group experience, or if you're in a study group that would like to add quality continuing education to its curriculum, take this opportunity to test-drive an ExperDent-affiliated Study Group.

ExperDent-affiliated Study Groups will help you enhance your skills, gain confidence in planning with specialists and laboratories, and get the results you want for your patients! But don't just take our word for it—take a test-drive and find out for yourself how this program “handles”.

We currently have Study Groups in **Toronto, Aurora, Scarborough, Mississauga, Burlington, and Hamilton**. Ask us about forming a Study Group in your area!

Call now and become a Study Group member for the upcoming academic year in September.

Don't Delay! Join Now!

Attendance in Study Groups is limited.

Attend the launch of one of our Study Groups and experience this unique education forum for yourself. We're confident that you will want to become a part of this opportunity. You will spend quality time and come away with practical knowledge and skills that are both easy to implement and will prove invaluable for you and your practice.

When you choose to become a Study Group member, numerous benefits include attendance to four full-day lectures, mentoring by a team of interdisciplinary specialists and laboratory in each Study Group, diagnosis and treatment planning workshops, email discussion groups, reduced tuition to ECDE hands-on programs, and much more. That should help get your motor started!

Call us at (905) 829-8839 to find out more about a Study Group launching near you and **register** for your **test-drive today!**

**TO REGISTER
or for more information,**

CALL

(905) 829-8839 or

email mmitchell@experdent.com and
kick off your Study Group experience!

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

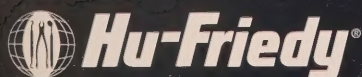

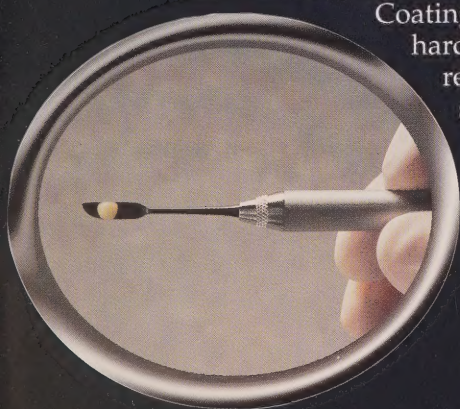

We're taking Composite Instruments further...

*Satin Steel™ XTS™ from Hu-Friedy.
The new standard for performance
and feel in composite instruments.*

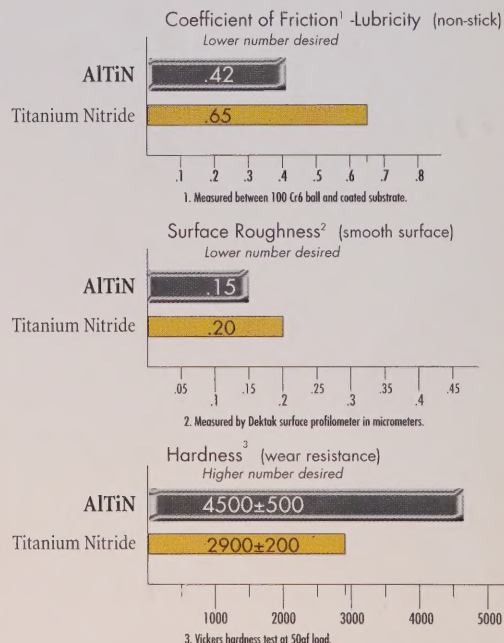

Through advanced technology and innovative design, Hu-Friedy has created Satin Steel XTS™, a complete line of composite instruments that allows for perfect placement of composite materials without sticking to or discoloring restorations.

Our Aluminum Titanium Nitride Coating creates an extremely hard, smooth surface that resists scratches and sticking. The unique, black finish offers enhanced contrast between instrument, tooth structure and composite material.

It's all in the numbers!

As research indicates, Hu-Friedy's Aluminum Titanium Nitride (AlTiN) coating is consistently harder, smoother and sticks less as compared to conventional titanium-only coatings.

If you like these numbers, call this number:
1-800-HU-FRIEDY, and ask about Satin Steel™ XTS™

Dentistry's Best Kept Secret

In-Ceram®

Alumina • Spinell • Zirconia

**All Ceramics For
Every Indication**

"High strength and the ability to use conventional cements make In-Ceram my first choice for patients with high esthetic needs, and where adhesive bonding to dentin may be unpredictable."

*– Frank M. Spear,
DDS, MSD*

All-ceramic materials have been available for more than ten years - we know, we helped pioneer the field. And we have, since day one, had objective intraoral data to prove its value and strength. There are millions of satisfied patients with contented smiles and perfect In-Ceram restorations out there. In-Ceram puts you in control. You have your choice of three materials of varying esthetics and strength to fit every case, even Zirconia posterior bridges. And In-Ceram veneered with Vitadur Alpha in VITA Classical or 3D-Master shades provides optimal shade match. Margins are easily adjusted prior to glass infiltration and you can use your preferred luting technique. In-Ceram's 98.1% success rate after six years* speaks for itself. Feel free to share the secret!
